## SWEET PEAS.

COUNTESS SPENCER TYPES. We list not only our own introductions, but nearly all Spencer types to date. Similar varieties, in some instances, have been introduced in this country and Europe. For the guidance of the Trade we give the European variety following the American. We have been fortunate in originating more of the Spencer type than any other American or European Grower. Sweet Pea critics are familiar with the difficulties encountered by the Grower in growing the Spencer types. In order to obtain the best results, we select plants of only the finest types, and HAND PICK all Stock Seeds. Prices quoted are reasonable, as True Spencers are shy seeders, and require much more expense and labor than other types.

## **NASTURTIUMS**

We call special attention to our list of Nasturtiums. Dealers will find herein many new distinct Classes and Varieties, besides all the old Standard Sorts.

The brilliancy, contrast and beauty of many of our New Creations are simply unsurpassed. The special offerings are in some instances the result of years of work of hybridization and selection. The Variegated Leaved, the Ivy Leaved and the Gold Leaved are magnificent in their foliage, while gorgeous flowers in all colors and shades predominate through all the varieties.
